JEWELRY

ANN-MADE LLC

Recycling can be Beautiful™

The vision and passion behind Ann-Made jewelry is Ann Skydell Harmon, a former special education art teacher. She set out to show that businesses have the power to "do good" for society and the planet in all aspects of their operations.

Ann-Made jewelry is made from repurposed soda can tabs to remind us recycling is important and a little creativity can put many discarded items to new use. Our packaging is made of 100% recycled paper and reused cardboard and our shipping materials are entirely environmentally-friendly. Importantly, we donate to environmental and social causes. The jewelry is handcrafted in America by Ann and talented assistants who benefit greatly by being able to work at home.

So wear your Ann-Made jewelry with pride knowing your purchase did so much for so many.

And we thank you!
